

# Make the safer choice

Change to paper hand towels today to meet the new hygiene standard

**75%**  
of visitors wish more facilities offered paper hand towels as an alternative to air dryers<sup>3</sup>

Drying your hands with a jet air dryer **produces more airborne droplets.**<sup>2</sup> Paper towels are the most hygienic way to dry hands by friction removing bacteria and the recommended choice in hygiene-critical environments.<sup>4</sup>

 Jet air dryers spread up to **10x more germs**<sup>1</sup>

.....

 A majority of end-users **prefer paper hand towels** over air dryers<sup>3</sup>

User preference has shifted to paper hand towels<sup>3</sup>

**75%**  
Agree or strongly agree to  
I wish more facilities offered paper hand towels as an alternative to air dryers.

**43%**  
Agree or strongly agree to  
I feel unsafe entering a washroom with air dryers.

**50%**  
Agree or strongly agree to  
I am less likely to go to places that do not offer paper hand towels as a hand drying alternative.

More benefits:

<p><b>Quicker hand drying</b></p> <p><b>64%</b> of end-users say they stop drying their hands before completely dry as air dryers take too long to dry their hands<sup>3</sup></p>	<p><b>Multi-use and comfort</b></p> <p><b>72%</b> of end-users say they use paper hand towels to avoid touching different surfaces in public restrooms<sup>3</sup></p>

4) Todd, J Food Prot, 2010 5) Compared with using Tork Advanced 1ply folded towels in recessed cabinets

# We support you with compliance with hygiene standards

The system recommendations we have made (dispenser + refill) ensure your staff and guests feel safe in all areas of your company. Especially in areas with a lot of visitors and the chance of cross-contamination such as washrooms, coffee kitchens, break rooms, canteen, reception area, but also in more separate areas such as offices or workplaces, optimal hygiene conditions are crucial.

In addition, thanks to the well thought-out and functional dispenser solutions and the powerful refills (towels, toilet paper, soaps, disinfection, etc.), the systems ensure noticeably lower consumption and thus a reduction in process and maintenance costs.
