As part of Office Depot's commitment to third party verification of its environmental data the annual UK & Ireland greenhouse gas footprint report is independently assured to ISO14064-1. Details of our footprint can be seen below.

The Warrant from HRH The Prince of Wales is only issued to organisations that can demonstrate a robust environmental policy and commitment to sustainability.

2017/18 Results

Product Claims

Across the European region we have over 7,500 skus with environmental claims. Approximately 4,000 of these products are ranged to the UK and Ireland with approximately 1,700 available in the 2018 Office Depot UK catalogue. This equates to 22% of the catalogue products carrying a verified claim. Of the 1,691 "green" catalogue products, 952 are own-brand.

	Number of products with environmental attributes		% of products with environmental attributes	
	OD Catalogue	Own-brand in OD Catalogue	OD Catalogue	% of own-brand in OD Catalogue
2016	2020	984	21.39%	10.42%
2017	1983	992	21.38%	10.70%
2018	1691	952	21.87%	12.31%

The evidence required for an environmental product claim to be made is agreed with external consultants, Newleaf Sustainability Practice, who then independently verify the information provided by the suppliers before a claim is made to our customers. The details of the claims are documented in BMS Manual Annex ENVTs Product Claims Criteria.

- Zero waste to landfill was achieved for the fourth consecutive year.
- We recycled or recovered 90% of the waste generated in the UK and 96% in Ireland, therefore achieving our 90% target. In 2017 we changed our waste management company in Leicester and now send the general waste and mixed recycling from our head office facility to a mixed recycling facility (MRF) for pre-treatment, therefore separating more recyclate before the balance goes to waste to energy. This change will be made in our Ashton site during Q1 2018.
