

GFTN-UK FOREST PRODUCT REPORTING SUMMARY FOR 2017

Office Depot has been a member of WWF's Global Forest & Trade Network (GFTN) in the UK since 1995.

All GFTN members are committed to progressively sourcing forest products from well-managed sources.

Office Depot undertakes due diligence to assess and mitigate any risk of illegal and unwanted forest products entering into the UK market from our supply chain. We collect as much information on supply chain sources as possible, and systematically work to eliminate poor sources which may not positively benefit forests as a future resource for people and nature.

To highlight our progress towards meeting our commitments to source well-managed and recycled materials, we're publishing the status of our current supply chain for preferred categories of forest goods, as defined by the GFTN.

We hope the transparency of the UK GFTN members about their performance on forest sourcing will prompt others in the sector to follow suit. We also encourage all forest certification systems to continuously improve their performance in delivering responsible forest management.

At present, WWF and GFTN participants believe the FSC represents the gold standard and a credible benchmark for other forest certification schemes to match. Our preference is to source increasingly from credibly-certified forests or verified recycled sources.

The European Timber Regulation aims to limit the trade in illegal timber. It provides a baseline of legality as a minimum for forest goods entering the European market and reaching consumers. GFTN members want to make sure they're playing their part in reducing the UK footprint on global forest resources, by sourcing sustainably – going beyond a compliance-only approach.

Our forest products (tonnage sold), reported for the 2017 calendar year are as follows:

28.6% Source Assessed: forest source evaluated for legality and traceability criteria

11.8% Source Verified: forest source third party verified (includes PEFC certified products, and products manufactured from PEFC and FSC certified forest sources with broken chain of custody)

47.4% Credibly Certified (FSC certified products)

11.8% Recycled

% = volume of WRME m³ (wood raw material equivalent) sold in 2017 of in scope products.
FSC = Forest Stewardship Council.
PEFC = Programme for the Endorsement of Forest Certification.

The annual report is published in the following August to allow for the data to be collated and assessed.

Our responsible forest product procurement policy can be found here:

Scope of reporting

- All own-brand forest products for resale
- All copier papers for resale

Challenges

- Supplier confidentiality of raw material sources
- Customer appetite for or understanding of third party eco-labels

Priorities

- Introduction of new procedure to assess own-brand wood fibre
